

FEI Dressage Riders Ranking List Rules 2013

Effective 1st January 2013

General Principles

The World Dressage Rankings are based on:

- Percentages, scored in international competitions under FEI rules.
- Each Grand Prix level result will count from each international CDI3/4/5*/CDI-W event. Consolation Grand Prix results (which have to be clearly marked in the schedule and result lists) will not be taken into account.
- Three results per event will count from CDIOs, Olympic Games and World and Continental Championship.

Calculation of the World Ranking List

The ranking list is calculated over a period of one year. The ranking list begins on 1st January each year with a carrying over of the total numbers of points accumulated during the previous year (i.e. as of 31st December).

At the end of each month the points earned during that month are added to the list. The points from the same month the previous year are dropped from the list.

The FEI World Ranking List is a ranking list of Horse/Rider Combination. The ranking list takes into consideration the best results/percent scores of the Horse/Rider Combination.

Sold horses will be automatically removed from the list upon notification by the new owner/rider to the FEI.

Point System

The scores obtained in a maximum of 8 tests per year will count.

The points for the ranking are obtained by adding the 8 best scores of the last 12 months (expressed in World Ranking Points as under mentioned, the percentages will count with the first digit behind the comma, for example see World Ranking Points 160 - 170).

In the case of tie points the rider/horse combination with less counting results is in front of the other(s), if both have the same amount of counting results, the rider/horse combination with the best single result is in front of the other(s).

At the end of each month the points earned during that month are added to the list. The points from the same month the previous year are dropped from the list.

Fairness

The FEI Dressage Committee has the right to accept reasonable exceptions to these rules, in the interest of the riders and the sport in general.

The FEI Dressage Committee may decide not to include the scores obtained at an event in the rankings, should the event not have been organized in accordance with general principle of fairness. The Executive Board should confirm the decision of the Dressage Committee.
